

## CASE STUDY

“We remain impressed with the level of commitment & enthusiasm of the WorkSpace team.”

**ADG ZEPHYR LTD**

### The Business

ADG Zephyr Ltd is a dynamic team of Spiral Conveyor specialists who pride themselves in offering engineering excellence to the food industry.

Their engineers carry out consultancy, project management & the supply of equipment to cool or freeze all food products. They are also agents for, and consultants to, Marel Foods Systems, an international food group.

### The Background

ADG Zephyr Ltd was established in May 2005 by Sandy Grieve who trained locally with Jus-Rol Ltd, now General Mills.

Sandy recruited Steve Morris & David Alderson, Specialist Engineers, who had worked with him previously at Spooner Industries Ltd & Triphase Ltd (both in Yorkshire).

All have considerable experience in the world of Industrial Food Processing, especially proving, cooling and freezing.

### The Service

As a small business located in the North of England their focus is channelled towards client problems & needs. Offering well engineered, tailored solutions to process challenges with due consideration to health & safety implications.

ADG Zephyr Ltd excel in equipment selection, project management & consultancy to a growing list of UK & worldwide clients.

This niche area can involve heat, humidity & cooling or freezing as well as mechanical engineering structures with electrical/ electronic control.

Their equipment typically handles 500kg/hr up to 10,000kg/hr and processes all the food products in standard supermarket frozen/ chill aisles.

They can repair or refurbish Spiral Mechanisms, design new systems & recommend specifications for Industrial Refrigeration Equipment. Their ability to inspect problem equipment and recommend cost effective solutions is well known and they are proud that their growth is largely due to references from satisfied clients.

They have been UK agents for Marel Food Systems (manufacturers of Freezing Systems) for 3 years and carry out consultancy for them on a world wide basis, including:

- Freezing Systems
- Chilling Systems
- System Relocation
- Belt & Gearbox Replacement

### Why Berwick WorkSpace?

Sandy Grieve, Managing Director said “We had intended to set up an office in Yorkshire but watching the building develop in my home town was enough to make us reconsider.”

“When the WorkSpace building became available for viewing, its clever design & high quality finish appealed greatly. The centre provides a great image for our business with first class facilities which will enable us to grow.”

“We remain impressed with the level of commitment & enthusiasm of the WorkSpace team.”
